Introduction to StudyNotion

StudyNotion is a modern, comprehensive Ed-Tech platform (Learning Management System) that brings educators and learners together. It empowers students to purchase, manage, and engage with high-quality educational content while giving instructors complete freedom to create, upload, and monetize their own courses. From interactive video streaming and progress tracking to an integrated secure checkout system, StudyNotion provides a seamless start-to-finish learning experience.

1. Account Registration & Onboarding

■ How do I create a new student or instructor account?

Click the **"Signup"** button on the top navigation bar. Choose whether you want to be a **"Student"** or **"Instructor"**. Fill in your First Name, Last Name, Email, Password, and Confirm Password, then click "Create Account" to proceed.

■ How do I verify my email address?

After submitting your signup form, you will be redirected to an Email Verification page. Check your inbox for a 6-digit OTP code, enter it on the verification screen, and submit it to fully activate your account.

2. Authentication & Account Management

■ How do I log in to my account?

Go to the **Login** page by clicking "Log In" on the navigation bar. Enter your registered email and password, then click "Sign In" to access your dashboard.

■ What do I do if I forgot my password?

On the Login page, click the **"Forgot Password"** link. Enter your account email and click "Reset Password". You will receive a secure link via email — click it to set a new password.

■ How do I upload or change my profile picture?

Click your profile avatar (upper right), select **"Dashboard"**, then click **"Settings"** in the sidebar. Click "Select" to choose a new image and then "Upload" to save it.

■ How do I update my profile details?

In your Dashboard, click **"Settings"**. Update your First Name, Last Name, Date of Birth, Gender, Contact Number, and About biography, then click "Save".

■ How do I change my password while logged in?

In **"Settings"**, scroll to the Password section. Enter your Current Password and New Password, then click "Save".

■ How do I delete my account?

Navigate to **"Settings"** and scroll to the very bottom. Click the **"Delete Account"** button to permanently remove your data and course enrollments.

3. Catalog Navigation & Course Discovery

■ How do I browse different course categories?

Hover over the **"Catalog"** option in the top navigation bar. A dropdown will list all active categories (e.g., Python, Web Development). Click any category to view related courses.

■ How do I check the details and curriculum of a course?

From the Homepage or any Catalog page, click a Course Card to open its **Course Details** page. Here you can view the thumbnail, price, instructor info, learning outcomes, full curriculum, and student reviews.

4. Course Purchasing & Checkout

■ How do I add a course to my cart?

On the Course Details page, click **"Add to Cart"**. Access your cart via the Cart icon in the navigation bar or from your Dashboard sidebar.

■ How do I purchase a course?

Click **"Buy Now"** on a Course Details page, or click **"Checkout"** from your Cart. Complete the transaction via the secure Razorpay popup (Card, UPI, NetBanking, etc.). On success you are instantly enrolled and redirected to Enrolled Courses.

5. Learning & Course Consumption

■ How do I find and watch purchased courses?

Go to your **Dashboard** → **"Enrolled Courses"**. Click any course to launch the custom Video Player where you can watch all lectures.

■ How does progress tracking work?

After finishing a video lecture, click the **"Mark as Complete"** button. Your completion percentage in the Enrolled Courses tab updates automatically.

■ How does the rating and review system work?

In the Video Player, click the **"Review"** button. A popup lets you assign a 1–5 star rating and type personal feedback, which is then publicly visible on the course page.

6. Instructor Course Creation & Management

■ How do I check my income and student analytics?

Log into an Instructor account, open your **Dashboard**, and click the **"Instructor"** tab. Pie charts and graphs show total enrolled students, active courses, and generated income.

■ How do I create and publish a new course?

Click **"Add Course"** from the sidebar.

Step 1 – Information: Fill in the title, description, price, category, tags, benefits, and upload a thumbnail.

Step 2 – Curriculum: Add Sections (modules) and Sub-sections (lectures) and upload video files.

Step 3 – Publish: Switch the status from Draft to **"Published"** to make it live.

■ How do I manage or edit existing courses?

From your Dashboard, click **"My Courses"** to see all your Drafts and Published courses. Use the Edit or Delete buttons to manage them.

7. General Support

■ How do I contact the support team?

Click the "**Contact**" link in the main navigation. Fill in your First Name, Last Name, Email, Phone Number, and Message, then submit the form to reach the support team.

8. Full Walkthrough: The Student Journey

- 1. Sign Up & Verify:** Click "Signup", create a Student account, and enter the 6-digit OTP sent to your email.
- 2. Setup Profile:** Log in, open "Settings", upload a profile picture, write a bio, and save.
- 3. Discover Courses:** Browse the homepage or open the "Catalog" menu to find topics of interest.
- 4. Evaluate Curriculum:** Click a course card to read the description, syllabus, and student reviews.
- 5. Purchase the Course:** Click "Buy Now" and complete the transaction via the secure Razorpay popup.
- 6. Start Learning:** Go to Dashboard → "Enrolled Courses", select your course, and launch the Video Player.
- 7. Complete & Review:** Mark lectures as complete as you progress, then click "Review" to share your feedback.

9. Full Walkthrough: The Instructor Journey

- 1. Create an Instructor Account:** Register via "Signup", choosing "Instructor" as your role, and verify with OTP.
- 2. Access the Dashboard:** Log in and click your profile avatar to open your Dashboard.
- 3. Create Your First Course Shell:** Click "Add Course". Enter an appealing title, description, price, and thumbnail.
- 4. Build the Curriculum:** Add Sections (chapters) and upload video files to Sub-sections (lectures).
- 5. Publish Your Work:** Switch status from Draft to "Published" — your course is now live in the Catalog.
- 6. Track Your Earnings:** Visit the "Instructor" dashboard view to monitor enrollments and income analytics.
- 7. Manage Catalog:** Use "My Courses" to edit lectures, update descriptions, or unpublish courses at any time.

Thank you for using StudyNotion. Happy learning and teaching!
